

HOW TO PRINT AND ASSEMBLE

IMPORTANT INFO

It is important that you print a proof sheet, to verify that everything is correct. The page is set to print on Letter size (8.5in x 11in). Do not scale the files to avoid altering the proportions.

Important: colors can appear differently on various monitors and printers due to the different color settings between monitors.

MATERIALS I RECOMMEND

- Card stock paper – I use 110lb index card stock
- Lollipop Sticks – The Wilton 4 Lollipop Sticks work perfectly!
- Adhesive {double sided tape, glue dots or lines} – Lines from Glue Dots are great! They go on so easily, and they're the perfect size for cupcake toppers!
- Scissors

ASSEMBLE

- Print your file on card stock paper
- Cut out each image
- Use double sided tape on the back of each image.
- Center your topper over the lollipop stick
- Press down gently so you don't bend the paper
- Stick in the center of your cupcake!
